SUMMARY

I'm a Full-Stack Developer with 5 years of experience in PHP. Over this time, I've worked with Laravel, Symfony, React, and Next.js to build reliable, user-friendly web applications. I enjoy solving complex problems, writing clean code, and collaborating with teams to create high-quality solutions. I'm eager to apply my skills and passion for development to meaningful projects while continuing to grow.

SKILLS

PROGRAMMING	Experienced: PHP JavaScript
WEB/MEDIA	HTML CSS Javascript jQuery Bootstrap
FRAMEWORKS & LIBRARIES	Symfony Laravel
DATABASE	MySQL
VERSION CONTROL & DEVOPS	Git Docker AWS
LANGUAGES	English Filipino

PROFESSIONAL EXPERIENCE

LAMUDI PHILIPPINES INC.

April 2024 - Present / Makati City

SOFTWARE ENGINEER

- Developed and maintained PHP-based web applications and APIs using Symfony.
- Conducted code reviews and provided technical guidance and mentorship to junior developer, improving code quality
- Worked closely with cross-functional teams to define and implement business-driven technical solutions.

LAMUDI TECHNICAL SERVICES CORPORATION

August 2022 - April 2024 / Makati City

JUNIOR SOFTWARE ENGINEER

- Worked on complex web applications, improving performance and user experience.
- Investigated issues and implemented new features to improve application functionality and user experience.
- Followed agile methodologies, attending daily standups and team meetings to improve communication.

CAVITE STATE UNIVERSITY-CCAT CAMPUS

August 2019 - June 2022 / Rosario, Cavite

RESEARCH ASSISTANT

- Developed web applications using PHP, MySQL, and Laravel to support university operations.

EDUCATIONAL BACKGROUND

TERTIARY EDUCATION

Cavite State University-Main / 2014 - 2019

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

PROFESSIONAL PROJECTS

LAMUDI WEBSITE

- Contributed to the frontend development of one of the leading real estate platforms in the Philippines and Indonesia, serving 800,000+ monthly visitors.
- Enhanced the Symfony backend for the main application and contributed to improving microservices, optimizing APIs, and improving website performance.
- Contributed to transitioning the frontend to Next.js by implementing core UI components, improving page performance, and refining the user experience.
- Added features and improved user experience to deliver value to both users and real estate agents.

AGRIBILIS

- Built an e-commerce platform using Laravel to connect farmers, traders, and consumers, streamlining the marketing and delivery of agricultural products.

RESEARCH AND EXTENSION SERVICE PORTAL

- Built a portal to streamline research proposals and service requests, reducing manual processing by 50% and enabling online submissions with a messaging system for status updates.

GOTRACE CONTACT TRACING APPLICATION

- Designed and deployed a mobile contact tracing application during the pandemic to monitor health records of school visitors, enhancing safety and compliance.
- Implemented system replication and deployment across multiple schools, enabling thousands of users to benefit from the application's dynamic, flexible, and user-friendly architecture, adaptable to various environments.

ONE VIRTUAL ACCREDITATION ROOM

- Developed a web-based platform for virtual accreditation in higher education, enabling secure data exchange and remote access.

CERTIFICATION

SOLID PRINCIPLES IN PHP: LEARN HOW TO WRITE BETTER CODE

June 2024

Applied SOLID principles to build scalable and maintainable PHP applications.

MASTERING NEXT.JS 13 WITH TYPESCRIPT

August 2024

Built a full-stack, production-grade application using Next.js 13 and TypeScript.

COMPLETE PYTHON MASTERY

November 2024

Comprehensive Python training covering advanced programming concepts and best practices.

ELECTRONIC DATA PROCESSING SPECIALIST ELIGIBILITY (EDPSE)

April 30, 2022

Earned through a competitive C++ exam, showcasing programming proficiency.
